

## John CH. 6

**How can we apply what Jesus teaches about Himself from the feeding of the five thousand to ministry?**

**Why might John have chosen to include his account of the storm on the sea of Galilee?**

**What is the crowd doing? What appears positive and commendable about their motivations?**

**Why does Jesus ignore their question? Why was it wrong to get excited about the idea that God may have sent a prophet, perhaps even the messiah, who was able to miraculously meet a basic and important need?**

**How do these verses help us to evaluate “Seeker Sensitive” and related philosophies popular today?**

## John CH. 6

**What is Jesus saying in verse 27? How does this connect with the crowd wanting to make Jesus king (15)?**

**If they had listened carefully to Jesus in vs. 27, should they have interpreted Jesus as telling them to “work” in the first place?**

**Why does Jesus take time to correct the crowd regarding who provided bread?**

**What is Jesus trying to communicate when he calls what the Father will give the “true” bread?**
